University Open Ended Items

Open 1 What helped you learn in this course?

The examples shown during class.

PowerPoint Presentations, in class lecture.

Really, everything about this course was great, including the instructor. I learned a lot about my camera and about other cameras that I had to use during the semester, and I now feel a lot more comfortable and knowledgeable with the equipment used in photography.

Actual discussion of the photographs taken by the students. It helped me to understand the concepts much better.

The powerpoint and the photography in an open setting outside the classroom

The constructive criticism that was given about the photos taken during the semester. The comments that were given about the photos were very helpful in learning how to take a better photo.

Having an instructor who was very knowledgeable and more than willing to help.

Having group discussions

I learned more than I could ever imagine in this course. I was very excited about taking this class because my knowledge of photography was very very basic. After taking this course I feel like I a whole new world has been opened up to me and I am excited to go further in photography.

taking the photos each week.

Open 2 What changes would improve your learning?

None.

I don't think any changes need to be made.

None.

If there was a change I would make, it would be to have more time in the field as a class, even if it's only one or two trips a semester to a location where as a class, we could utilize skills we have learned.

Nothing

None, it was great as it was.

None

Unrestricted Items

PHOTO- 1 What did you like best about this course?

The variety of artists and ideas shown by other students.

the reviews on the photos of other students

I liked learning about the material and expanding my skills of using a camera.

It was very fun and a great class to express my creativity. The professor had great knowledge of the course's subject and was able to get all of the points through very clearly.

Taking pictures each week

The professor really cared about the subject matter, and really wanted the students to succeed in photography.

I loved learning about many of the great photographers and seeing all of the photos that the other students took during the semester.

Mr. Fazio was a spectacular teacher who was available to answer any questions and help you understand anything you weren't clear on.

PHOTO- 2 What did you like least about this course?

I loved everything about this course!

Nothing

I understand the want to broaden students' horizons, but a little less graphic nudity, the better.

Nothing.

None

Nothing!

PHOTO- 3 What suggestions do you have for improving this course?

None

The only thing I would have changed is getting assignments earlier in the week. I have small children and often found it difficult to get a photograph of something I wanted to do because of a lack of time due to family obligations over weekends.

A lot more constructive criticism from the professor. If there was an area in a student photo that didn't work, I think the professor could have tactfully talked about it, rather than let it go. A student won't know it's wrong if no one tells him/her.

None.

None, keep up the great work!

I don't have any.

None
